Samuel Johnson

ONLY THE FIAT 500L MULTIPLIES THESE ASPIRATIONS BY **1500**, IDENTICAL TO THE NUMBER OF INTERNAL CONFIGURATIONS. **INCREDIBLE**, ISN'T IT?

To enhance comfort and interior space further, the Fiat 500L offers you a **host of seat adjustments**. The front passenger seat with folding table backrest* or the split rear seats can be longitudinally adjusted. Thanks to the **Fold&Tumble** function, it allows them to fold down onto themselves in one simple action. This provides a flat load platform that utilises the entire length of the car.

TRAVEL THE WORLD LIGHT.

THE FIAT 500L LETS YOU TRAVEL **LIGHTLY** THANKS TO ITS LATEST GENERATION ENGINES, WHICH OFFER LOW FUEL CONSUMPTION AND LOW EMISSIONS.

The Fiat 500L engines provide the best combination of performance, fuel consumption and low emission levels. In addition to the **1.4 16v 95hp petrol** engine, the new **1.4 16v T-Jet 120hp** and the revolutionary **0.9 TwinAir 105hp**, the Fiat 500L range is completed with the **1.3 85hp MultiJet II turbo diesel** (also available in the Dualogic™ version), the **1.6 16v 105hp MultiJet II turbo diesel** and now also the **1.6 16v 120hp MultiJet II turbo diesel**.

On the Fiat 500L, safety is guaranteed at the highest level. The car is fitted with **headlights with "Day Running Light" function**, optional **fog lights with "self-adaptive cornering"** and City Brake Control (CBC). The Fiat 500L has as standard **6 Airbags**, EBD, ABS and BAS (Brake Assist System) and the sophisticated **ESC (Electronic Stability Control)** which incorporates the **ASR/MSR** acceleration and deceleration anti-slipping function with **Hill Holder** to facilitate hill starts. Also supplied as standard is **DST** active steering which improves driving safety and handling performance, as well as electronic rollover mitigation (**ERM**). The Fiat 500L comes with a 5 Star Euro NCAP rating.

“OUR NATURE CONSISTS
IN MOTION.”

BLAISE PASCAL

The Fiat 500L provides the best combination of performance, fuel consumption and low emission levels, thanks to the latest generation engines.

All the Fiat 500L petrol engines are Euro 6 compliant. You can choose the **1.4 16v 95 hp** engine or the revolutionary twin-cylinder **0.9 TwinAir 105 hp** with 6 speed manual gearbox. Both offer outstanding performance with exceptionally low emissions. For even more powerful driving, you can choose the new **1.4 T-Jet Turbo 120 hp**, the ideal engine for ensuring agility and response.

The Fiat 500L diesel range sets a true benchmark, thanks to the third-generation of Common Rail injection systems and Start&Stop technology.

The **1.3 MultiJet II 85 hp**, available with manual or automatic gearbox (MTA Dualogic), guarantees high torque even at low speeds as well as considerably reduced fuel consumption and CO₂ emissions (110 g/km for manual, 105 g/km for automatic).

The **1.6 MultiJet 105 hp** engine with 6 speed manual gearbox offers outstanding performance with all the benefits of a new technology diesel engine. However, if you require even more performance, you can try the new top of the range **1.6 MultiJet 120 hp**, which combines power with economy.
